

C-4 Council motion**Gulf of Alaska Groundfish Specifications****December 6, 2025**

The Council recommends the AFSC update the Gulf of Alaska Pacific cod stock assessment to include 2025 survey data in early 2026. The agency could report back to the Council in February 2026 B reports on the staff capacity, process, and feasibility of completing the assessment, having the SSC establish a new OFL and ABC, and the Council recommending a TAC for the 2026 Gulf Pacific cod fisheries.
