

# D2 Planning for Fall 2026 Groundfish Stock Assessment Cycle

Report from SSC/AFSC/Council Staff Workgroup

NPFMC: Sara Cleaver, Diana Stram

AFSC: Melissa Haltuch, Chris Lunsford

February 2026

## Background

- No new operational groundfish stock assessments in 2025, 1 HP
- 2026 assessments will inform 2027 and 2028 specifications
- Dec 2025, SSC recommended forming a workgroup
  - Develop report for February with groundfish assessments prioritized for 2026

## SSC action items

- Review working group recommendations
- Evaluate 2026 trade off stocks that won't be assessed this year
- Recommend stocks to be brought forth in Sept/Oct and Nov/Dec

## SSC criteria for prioritizing 2026 stock assessments (from Dec 2025)

- Stock assessments with a one-year cycle completed as normal
- Stock assessments with a four-year cycle shifted forward by one year
- Prioritize two-year stocks from 2025 and 2026
- Prioritize:
  - AI Pacific Cod, BSAI Yellowfin Sole, BSAI Other Rockfish, BSAI Skates
  - GOA RE/BS, GOA Shortraker, and GOA POP

## Workgroup prioritization for 2026 stock assessments

***Additional*** working group recommendations:

- Produce **Harvest Projections** in 2026 for all Tier 1-3 stocks without operational full / update assessments
- Tier 6 stocks on four-year cycle not prioritized
- Prioritize stocks that had preliminary review in fall 2025
- Prioritize availability of new survey data from 2025 or 2026
- Stocks catch/ABC ratio, lower priority for lower ratios

## Trade off stocks - not assessed in 2026

### Four year stocks

- GOA Atka mackerel / GOA Octopus
  - last operational 2021, catch report recommended
- GOA Shallow water flatfish
  - last operational 2021, catch report recommended
- GOA and BSAI sharks
  - Last operational 2022, catch report recommended
- BSAI Flathead sole, BSAI Arrowtooth flounder
  - Last operational 2022, harvest projection recommended

## Trade off stocks - not assessed in 2026

### Two year stocks

- BSAI Northern rock sole, BSAI Kamchatka flounder, AI Pollock
  - last operational 2024, harvest projection recommended
- GOA Dusky rockfish
  - last operational 2024, harvest projection recommended
- BSAI Northern rockfish
  - Last operational 2023, harvest projection recommended

# Review timeline

## Sept/Oct and Nov/Dec review of operational assessments

Type of assessment	September/October	November/December
Operational Full	4	10
Operational Update	5	5
Ecosystem Report	0	1
Harvest Projections	12	0

## SSC action items

- Review recommendations put forth by working group
- Evaluate 2026 trade off stocks that won't be assessed this year
- Recommend stocks to be brought forth in Sept/Oct and Nov/Dec
