Objective: Further develop the framework and modify workplan for CCTF:

1. Draft ecosystem climate conceptual model
2. Draft ecological and socioeconomic indicators of climate change.
3. Draft table of climate-management risks and adaptations by species or focal components
4. Begin to draft list of short-medium and long-term projects and scenarios to explore
5. Develop one-page template and tasking for climate knowledge briefing reports
6. Draft agenda for proposed Climate Knowledge Briefing 1 meeting in May and Climate Knowledge Briefing 2 workshop with LK TK taskforce. Discuss the possibility of a Norton Sound case study. Or suggest other case studies? What can CCTF provide to use NSRKC as a useful case study? What are other case study ideas (e.g. Cod?)
7. Review and revise deliverables and progress tracking mechanisms and update workplan.
